

M-800 SERIES

Modular Rope Belt Conveyor

CONVEYORS SYSTEM

The new M-800 Series is a modular, stainless steel, powered case conveyor system for medium duty applications. An economic, custom system can be created with straight, inclined, declined and corner sections, with the drive slaved off a main section. The M-800 series is a clean and attractive alternative for powered roller or belt conveyor systems.

M-800 Series

Modular Rope Belt Conveyor System

Features:

- Modular design
- Stainless steel finish
- Simple rope-belt design
- Cost effective

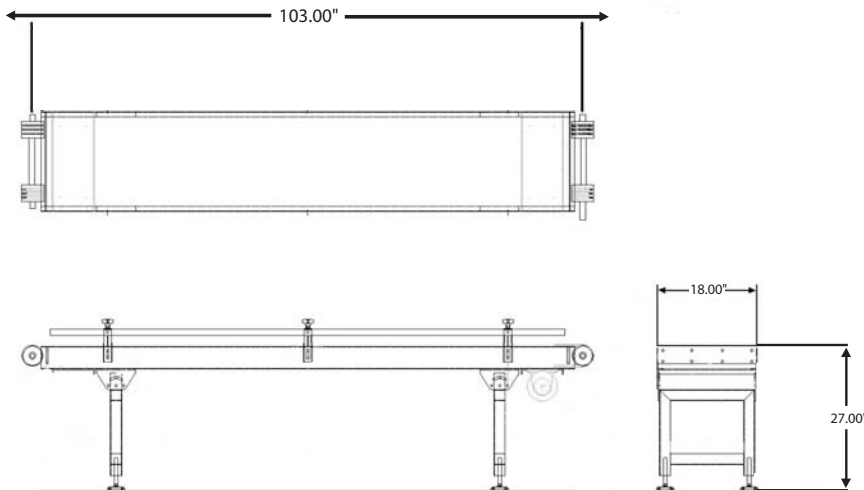

Benefits:

- Create a custom system with standard sections to suit your requirement
- Clean and durable, maintains hygiene
- Low maintenance and easy belt change
- Quick return of investment
